

## RGE Tech Tips from the Field – Client Edition

Topic: 🎓 RGE Archived Seminars — Master Index

### 🎓 RGE Archived Seminars — Master Index

#### Welcome to the RGE Seminar Archive

Missed a seminar or want to revisit one at your own pace?

This archive brings together RGE’s **long-form, instructor-led seminars**—designed specifically for older adults who want clear explanations, real-world examples, and reassurance that learning technology doesn’t require speed or memorization.

Each seminar focuses on a **single topic**, builds skills step by step, and reinforces a calm, confidence-first mindset.

---

#### How to Use This Index

- Seminars are listed **by month**
- Each entry includes the **seminar title** and its **primary learning focus**
- Companion videos and PDFs are available for archived sessions
- Future months appear as placeholders, so nothing feels missing or confusing

### Seminars vs. Chip Tips (Quick Orientation)

- **Chip Tips** → quick, one-page help for a single problem
- **Seminars** → guided learning sessions with explanation, context, and reassurance

Many seminars reference Chip Tips, and many Chip Tips exist because of seminar questions. This archive keeps both working together.
